### GENERAL CONDITIONS

*Please Read Carefully*

*These Provisions Are a Part of Your Bid and any Contract Awarded*

**Scope of Bid/Proposal:** Bids/Proposals/Statement of Qualifications are hereby requested for **TMWRF FACILITY PLAN**, as per specifications herein.

**The bidder agrees that:**

- A. Bidder has carefully examined the specifications, and all provisions relating to the item(s) to be furnished or the work to be done; understands the meaning, intent, and requirements; and
- B. Bidder will enter into a written contract and furnish the item(s) or complete the work in the time specified, and in strict conformity with the City of Sparks specifications for the prices quoted.

**Note:** Bidder is defined as any individual, partnership, or corporation submitting a bid, proposal, or quotation in response to a request for bid (RFB), request for proposal (RFP), request for information (RFI) or request for quotation (RFQ). A bidder may also be referred to as a bidder, contractor, supplier or vendor.

The use of the title "Bidder," "Vendor", "Contractor" or "Consultant" within this solicitation document and any resulting contract shall be deemed interchangeable and shall refer to the person or entity with whom the City of Sparks is soliciting and/or contracting for the service or product referenced within the bid document.

**1. Items Offered:**

If the item offered by the bidder has a trade name, brand and/or catalog number, such shall be stated in the bid. If the bidder proposes to furnish an item of a manufacturer or vendor other than that mentioned on the face hereof, bidder must specify maker, brand, quality, catalog number, or other trade designation. Unless such is noted on the bid form, it will be deemed that the item offered is that designated even though the bid may state "or equal".

**2. Brand Names:**

Whenever reference to a specific brand name is made by the City, it is intended to describe a component that has been determined to best meet operational, performance, or reliability standards of the City, thereby incorporating these standards by reference within the specifications. These specifications are not meant to limit the vendor; they are guidelines to minimum qualifications. The bidder shall indicate their compliance or non-compliance for each line of the specification. Any deviations from the specifications or where submitted literature does not fully support the meaning of the specifications must be clearly cited in writing by the bidder. An equivalent ("or equal") may be offered by the bidder, subject to evaluation and acceptance by the City. It is the bidder's responsibility to provide, at bidder's expense, samples, test data, or other documentation the City may require to fully evaluate and determine acceptability of an offered substitute. The City reserves the sole right to reject a substituted component that will not meet or exceed City standards.

**3. Samples:**

Samples may be required for bid evaluation and testing purposes. Bidders shall agree to provide samples upon request and at no additional cost to the City.

**4. Withdrawal of Bids/Proposals:**

Bids/Proposals may be withdrawn by written or facsimile notice received prior to the exact hour and date specified for receipt of bid. A bid may also be withdrawn in person by a bidder, or bidder's authorized representative, prior to the exact hour and date set for receipt of bids. Telephone withdrawals are not permitted.

## General Conditions

---

### 5. **Late Bids, Modifications, or Withdrawals:**

Bids, modifications of bids, or bid withdrawals received after the exact time and date specified for receipt will not be considered.

### 6. **Mistake in Bid:**

- (a) If the bidder discovers a mistake in bid prior to the hour and date specified for receipt of bid, bidder may correct the mistake by withdrawing the bid in accordance with Item 4 above and resubmit prior to the stated bid deadline.
- (b) If within seventy-two hours of the bid closing and prior to the issuance of a purchase order or a contract, the apparent low bidder discovers a mistake in bid of a serious and significant nature, bidder may request consideration be given to withdrawing the bid. The mistake must be evident and provable. The right is reserved by the City to reject any and all requests for withdrawal of bids. The decision of the Purchasing Manager is final as regards acceptance or rejection of requests for withdrawal after closing of bids.
- (c) A mistake in bid cannot be considered once a purchase order or contract is issued.

### 7. **Signature:**

All bids shall be signed and the title and firm name indicated. A bid by a corporation shall be signed by an authorized officer, employee or agent with his or her title.

### 8. **Exceptions:**

A bidder deviating from specifications must specify any and all deviation(s). Failure to note said exceptions shall be interpreted to convey that the bidder shall propose to perform in the manner described and/or specified in this bid solicitation. If exception(s) are taken or alternatives offered, complete descriptions must be shown separately.

### 9. **Confidential Information:**

Any information deemed confidential or proprietary should be clearly identified by the bidder as such. It may then be protected and treated with confidentiality only to the extent permitted by state law. Otherwise the information shall be considered a public record. Information or data submitted with a bid will not be returned.

### 10. **Quality:**

Unless otherwise required in the specifications, all goods furnished shall be new and unused.

### 11. **Litigation Warranty:**

The bidder, by bidding, warrants that bidder is not currently involved in litigation or arbitration concerning the materials or bidder's performance concerning the same or similar material or service to be supplied pursuant to this contract of specification, and that no judgments or awards have been made against bidder on the basis of bidder's performance in supplying or installing the same or similar material or service, unless such fact is disclosed to the City in the bid. Disclosure may not disqualify the bidder. The City reserves the right to evaluate bids on the basis of the facts surrounding such litigation or arbitration and to require bidder to furnish the City with a surety bond executed by a surety company authorized to do business in the State of Nevada and approved by The City of Sparks in a sum equal to one hundred percent (100%) of the contract price conditional on the faithful performance by bidder of the contract in the event the bid is awarded to bidder, notwithstanding the litigation or arbitration.

---

**12. Royalties, Licenses and Patents:**

Unless otherwise specified, the bidder shall pay all royalties, license and patent fees. The bidder warrants that the materials to be supplied do not infringe any patent, trademark or copyright and further agrees to defend any and all suits, actions and claims for infringement that are brought against the City, and to defend, indemnify and hold harmless the City from all loss or damages, whether general, exemplary or punitive, as a result of any actual or claimed infringement asserted against the City, the bidder or those furnishing material to bidder pursuant to this contract.

**13. Performance Standards:**

Performance of work and acceptability of equipment or materials supplied pursuant to any contract or award shall be to the satisfaction and full discretion of the City.

**14. Americans with Disabilities Act (ADA) Standards:**

Bidders shall be required to comply with current ADA Standards in preparing their bids and executing work required under any contract resulting from this bid. Completed work must comply with current ADA Standards.

**15. Warranties:**

(a) Unless otherwise specified, all workmanship, material, labor or equipment provided under the contract shall be warranted by bidder and/or manufacturer for a minimum of twelve (12) months after acceptance by City. Greater warranty protection will be accepted. Lesser warranty protection must be indicated by bidder on the bid proposal as an exception.

(b) Bidder shall be considered primarily responsible to the City for all warranty service, parts and labor applicable to the goods or equipment provided by bidder under this bid or award, irrespective of whether bidder is an agent, broker, fabricator or manufacturer's dealer. Bidder shall be responsible for ensuring that warranty work is performed at a local agency or facility convenient to City and that services, parts and labor are available and provided to meet City's schedules and deadlines. If required and defined within the Scope of Work, the Bidder will post a performance bond after contract award to guarantee performance of these obligations. Bidder may establish a service contract with a local agency satisfactory to City to meet this obligation if bidder does not ordinarily provide warranty service.

**16. Addenda:**

The effect of all addenda to the bid documents shall be considered in the bid, and said addenda shall be made part of the bid documents and shall be returned with them. Before submitting a bid, each bidder shall ascertain whether or not any addenda have been issued, and failure to acknowledge any such addenda may render the bid invalid and result in its rejection.

All potential bidders are responsible for monitoring the City website regarding the availability of new bid documents or addenda (where applicable). The City of Sparks will not be responsible for the results of any potential failures in automatic notification systems to potential bidders or plan holders with respect to these documents and will not adjust bid schedules or requirements due to any potential failures of those systems. It is the responsibility of all potential bidders/responders to monitor the Purchasing Division's website for any changing information prior to submitting their bid/proposal. The City of Sparks will not be responsible for the timeliness or completeness of information provided by any 3<sup>rd</sup> party bid listing or re-selling service.

**TMWRF FACILITY PLAN  
RFP/SOQ #18/19-007**

**INTRODUCTION**

The Truckee Meadows Water Reclamation Facility (TMWRF), jointly owned by the Cities of Sparks and Reno, Nevada, intends to engage a consulting firm to complete the 2019 TMWRF Facility Plan (the Plan). The intent is to create a planning document to identify necessary improvements, potentially new processes, equipment and facilities as well as repair or replacement of existing major assets. The planning horizon will be a facility that is capable of treating and discharging of **42 Million Gallons per Day** of municipal wastewater in compliance with all aspects of TMWRF’s NPDES discharge permit. The plan will determine necessary improvements, establish process milestones (in MGD or lbs of pollutant loading) where improvements are needed, provide estimated construction costs and estimated staffing needs. *(The design flow number has not been finalized yet. I intend to have a meeting with the 3 directors to discuss expected inputs from development as well as RSWRF and STMWRF before selecting the final design flow)*

**BACKGROUND**

TMWRF is a regional wastewater treatment plant serving the majority of the Truckee Meadows, comprised of the Cities of Reno, Sparks, Sun Valley GID and unincorporated Washoe County. The facility began service in 1966 as a secondary plant and has experienced 11 major upgrades as shown in Table 1 below.

Year	Process	Description
1978	First Activated Sludge Expansion	Addition of one aeration basin, two primary clarifiers, two secondary clarifiers and one digester.
1983	Dewatering	Added centrifuges, TWAS DAF tanks, abandoned sludge drying beds
1983	Second Activated Sludge Expansion	Addition of one primary clarifier, one secondary clarifier and one digester
1985	Upgrade to tertiary treatment	Added 4 nitrification towers, denitrification reactor, dual media filters, 4 pho-strip reactors
1996	Effluent Reuse	Category B effluent is used for the irrigation of municipal parks, athletic fields and University of Nevada Experimental Farm
1999	Expand denitrification	Addition of 2 nitrification towers for a total of 6
2004	Phosphorus treatment	Pho-strip abandoned in favor of Bio-P.
2006	Third Activated Sludge	Addition of one aeration basin, one primary clarifier, one

		secondary clarifier and one acid-phase digester
2014	Gas Conditioning	Installed a digester gas treatment system to remove hydrogen sulfide and siloxanes prior to use in Cogen or flare
2016	Phosphorus recovery	Addition of the Ostara nutrient recovery system to recover phosphate from the dewatering centrate
2016	Co-generation	Addition of a ±1 MW cogeneration engine
2016	Dewatering	Replacement of centrifuges and cakes pumps

## CONDITIONS

The proposed work will be professional engineering services. Thus, each team must identify the prime consulting firm, a project manager who is a licensed professional engineer in the State of Nevada.

The Nevada Water Innovation Campus (NWIC) from the University of Nevada will participate in the facility plan process as an owner’s representative. NWIC will work with the selected firm as a technical advisor on behalf of TMWRF at no cost to the consultant. It is expected that NWIC representatives will review consultant work, participate in workshops and meetings on behalf of TMWRF and provide technical assistance to the selected firm.

Michael Drinkwater, P.E., Treatment Plant Manager, will manage the project on behalf of TMWRF although it is expected that key staff members will serve as points of contact for various tasks and sub-tasks. The selected firm will enter into a contract with the City of Sparks on behalf of TMWRF for the work. This is a work for hire and as such all technical memos, graphics and other work products will become the property of the City of Sparks, NV on behalf of TMWRF.

## SCOPE OF WORK

TMWRF has not performed a facility plan recently enough to be relevant to the current project. Thus, the proposed plan will be original and comprehensive. The 2019 Facility Plan scope of work is intended to identify those improvements, both process and support, necessary to allow the plant to effectively treat an average daily flow of 42 million gallons per day. Anticipated tasks include

1. **Assessment of existing influent loading** - This includes hydraulic and pollutant loading to the facility from existing dischargers as well as existing and anticipated loading from satellite wastewater plants.
2. Condition assessment of existing unit processes for treatment efficiency, firm capacity, process control and redundancy
3. Development of alternatives for expansions of new or existing treatment processes to maintain compliance with the discharge limits up to 42 MGD. These alternatives should include

milestones where each major component would be needed, expressed in terms of influent flow (MGD) or loading of the controlling pollutant (lbs/day). Additionally, the plan should include the impact of any proposed effluent management strategy on potable and effluent water rights.

4. Evaluation of the existing Capital Improvement Plan for the facility and incorporating the identified items into the alternatives identified above or recommending deletion of items from the CIP as appropriate. This analysis will include chemical, power and other operating costs of the process or equipment.
5. Planning level estimate for construction costs of major plant expansion or rehabilitation projects.
6. Evaluation of existing support facilities (e.g. maintenance shop, laboratory, control and administration facilities,) for the ability to serve through the planning horizon.
7. Evaluation of staffing needs through the planning horizon.

The scope of work for this project *will likely not include* any analysis for influent flow monitoring, land use planning, population projections or analysis of the collection system apart from that portion of the system immediately adjacent to the facility that may be used for flow equalization.

The selected engineering firm shall possess demonstrated expertise in each focus area identified above. TMWRF is presently conducting complementary activities which the selected firm will need to incorporate into their work. These complementary activities include:

1. Preparation of a Biowin model for the facility
2. Creation of an Asset Management program
3. Replacement of failing and failed water piping- both potable and effluent, within the facility
4. Replacement of the raw sewage pump switchgear
5. Nitrification Tower Rehabilitation
6. Evaluation of the existing 120 volt panels within the facility
7. Evaluation of the existing grit system
8. Evaluation of the existing TWAS system
9. Design of new lighting for the aeration deck
