Sales Quote

1.00	SharePoint Interface	$4,500.00	EA		$4,500.00
	Two-way interface between eRPortal and SharePoint.				
1.00	WO & PO Requisition Approval Workflow Module	$5,500.00	EA		$5,500.00
	Approval rules and routes can be created for both, Purchase and Work, Requisition types. Approvals can be based on dollar levels, each level requiring one or more sign-offs. In conjunction with dollar levels, classifications of either work or item type requested, can add to routing requirements. An example might be that based on item type, an EHS director may also have to approve. Approval routes can be configured to set the order in which the approvals must occur, including substitutions if allowed. Email notifications can be used to alert approvers of requests requiring review/decision. Email notifications can also be sent back to requestors of status of requests.				
1.00	DCS/SCADA Interface	$4,500.00	EA		$4,500.00
