Quote #1281748

Dear Mr. Saxberg:

Thank you for considering Clean Harbors Environmental Services, Inc. for your environmental service needs. We provide a broad range of environmental services including hazardous and non-hazardous waste transportation and disposal, laboratory chemical packing, emergency response, field services and industrial maintenance. We are pleased to provide this proposal based on the scope of work outlined below.

We offer our clients a broad spectrum of environmental services and the ability to dispose of hazardous material at or through a Clean Harbors' owned and operated facility. In addition to managing your waste streams, a Clean Harbors' professional can assist you with:

- Waste Transportation & Disposal
- Laboratory Chemical Packing
- Field Services
- 24-Hour Environmental Emergency Response
- Industrial Services
- Apollo Onsite Services

I look forward to servicing your environmental needs. When you are ready to place an order, please contact our Customer Service group at 800.444.4244. If you have any questions or need further assistance, you may reach me at the number below.

Sincerely

Corey R Harbart
Field Service Specialist
Phone: 775.331.9400

QUOTE CONDITIONS

Prior to completing the cleaning of the specified lime silo, CHES field crews will perform all Health and Safety related tasks as directed by the local CHES H&S Representative and any site specific regulations pertinent to your facility. An on site safety meeting will be conducted and documented.

CHES crews will set up the decon area using a 10:1 citric acid solution and water rinse, poly all access ways, man ways, etc., and properly cordon off the site to prohibit unauthorized access. Prior to execution, our CHES crew will communicate with your on site representatives to ensure plant conditions are as expected, contents of the tank are as discussed, and any system lines are blanked.

After the appropriate lockout and tag outs are performed, field crews will complete the following:

- open tank, perform appropriate monitoring and ventilation procedures
- attach vacuum truck and vac bin to bottom of lime silo
- remove lime from silo to vac bins.
- all lime will be transported in vacuum bins to WM Lockwood Landfill.
- all work will be done without entering the silo. If entry is needed, additional charges will apply.
- remove blanking and lockout/tagout
- CHES will then use a 17 ton boom truck, man lift, and cutting torches to disassemble the lime silo.
- all metal will be placed into Western Metals 20 yard roll off bins.
- all scrap metal will be shipped to Western Metals.
- TMWRF will assume all scrap value from this project. (Estimated 16 ton of metal \$4000.00)

GENERAL CONDITIONS

- Except where superseded by an existing services agreement the following terms and conditions apply to this quoted business.
- The customer hereby acknowledges that the estimated cost is based upon a preliminary appraisal by a Clean Harbors Field Representative, and that the amount invoiced by Clean Harbors will be based upon labor and materials actually expended in performing the scope of work. Any changes in the scope will be billed on a time and materials basis.
- Clean Harbors guarantees to hold these prices firm for 60 days.
- Clean Harbors' standard credit terms are net 15 days..
- For work to begin we ask that you acknowledge the quotation with a signature and provide the appropriate purchase order number. Where modifications to the scope of services become necessary, Clean Harbors will notify the customer promptly and obtain customer authorization for such modifications and a revised contract price will be established in order to finish the project.
- This proposal is contingent on the customer providing full and complete access to the site. Customer represents and warrants to Clean Harbors that the customer has the legal right, title and interest necessary to provide access to the site. In addition, customer warrants that it has supplied Clean Harbors complete and accurate information regarding the site, subsurface conditions, utility locations, site ownership, hazardous materials or wastes and other substances or hazards likely to be present and any other reports, documentation or information concerning the scope of work.
- Interest will be charged at 1.5% per month or the maximum allowed by law for all past due amounts.
- Local, state and federal fees/taxes applying to the generating location/receiving facilities are not included in disposal pricing and will be added to each invoice as applicable.
- Materials subject to additional charges if they do not conform to the listed specifications.
- Electronically submitted profiles will be approved at no charge. Paper profiles will be charged at \$75.00 each.
- A variable Recovery Fee (that fluctuates with the DOE national average diesel price), currently at 17.0%, is included in our quoted pricing.
- Pickups that require same day or next day service may be subject to additional charges.
- Pickups cancelled within 72 hours of scheduling will be subject to cancellation charges.
- Transportation charges to the final disposal facility will be charged in addition to local transportation to our truck to truck hub/local facility and will vary with logistics and routing.
- Time over eight (8) hours in the normal workday and all day Saturday is considered overtime and will be billed at 1.5 times the applicable straight time rate for all billable personnel unless otherwise quoted. Sunday and Holidays are considered premium time and will be billed at 2.0 times the applicable straight time rate for all billable personnel unless otherwise quoted.
- This proposal is submitted contingent upon the right to negotiate mutually acceptable contract terms and conditions, which are reflective of the work contemplated, and an equitable distribution of the risks involved therein. In the event that such agreement cannot be reached, Clean Harbors reserves the right to decline to enter into such an agreement without prejudice or penalty.
