Discount Details

Enrolled Affiliate will order the Products identified in the table below. The List Price is the Estimated Retail Price (ERP) per unit for such Products. Resellers pay a net price per unit that is lower than ERP. For this Enrollment, Microsoft provided Enrolled Affiliate's Reseller an additional discount off the Reseller's net price, and that additional discount is shown in the Discount column in the table below. The discount would be lower if it were a percentage of ERP because ERP is higher than net price. Reseller may receive other or additional compensation from Microsoft (e.g., incentives or rebates). Enrolled Affiliate's actual price will be established by a separate agreement between Enrolled Affiliate and its Reseller.
