Fiscal Year 15/16 mjrm

You are hereby notified of the award from your proposal on Bid No. 8248 in accordance with bid specifications and Terms and Conditions. Your contract is awarded for the dates of August 1, 2014 through July 31, 2015.

DELIVER TO: Nevada Department of Transportation, Statewide

Separate Purchase Orders will be issued as indicated in the original bid.

LISTING OF AWARDED ITEMS AND INSTRUCTIONS: Purchases will be made by the using agency by issuing an Asphalt Purchase Requisition (or equal paperwork) to the vendor for delivery at the time it is made. Invoices shall be sent direct to the district engineer in each district attached to the corresponding purchase order and shall be paid direct to the vendor by the using agency. Invoices shall show the **REQUISITION OR PURCHASE ORDER NUMBER AND THE DELIVERY TICKET NUMBER.**

Price increases will not be allowed during this term of this contract.

Quantities listed below are ESTIMATES of usage only, therefore, State of Nevada, Division of Purchasing or the Nevada Department of Transportation WILL NOT be obligated in any way whatsoever implied or otherwise to a definite quantity during the entire period of the contract.

The State of Nevada, Division of Purchasing OR the contractor (successful bidder) shall reserve the right of cancellation of any item or items hereinbefore specified and bid on provided such cancellation is for cause and given in writing by either to the other 10 days prior to cancellation. Cause shall be defined as change in price to the general public, increase in freight rates, poor

delivery, etc.

This contract is primarily for use by the Nevada Department of Transportation, however, orders may be placed by the Nevada State Purchasing Division or other State agencies, Cities, Counties or political subdivisions should the need arise

Material is to be delivered in truckload lots (approximately 25 tons) and packaged in two 25 lb. or 30 lb. blocks per box or in 5 gallon sealed containers on NON-RETURNABLE wood pallets. The material shall be capable of being melted and applied to joints and cracks at a temperature below 400F. and shall be guaranteed flash free at a temperature of at least 20 degrees Fahrenheit above the recommended application temperature. Containers shall have internal polyethylene liners and the maximum safe heating temperature of the product shall be indicated on the exterior of all containers. Heating and application instructions shall be furnished with each shipment.
