Administrative Requirements 44 CFR Part 13, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, 2 CFR Part 215, Institutions of Higher Education, Hospital and other Non-Profit Organizations. Cost Principles, 2 CFR Part 225, State and Local Governments, 2 CFR Part 220, Educational Institutions, 2 CFR Part 230 Non-Profit Organizations and Federal Acquisitions Regulations Sub-part 31.2, Contracts with Commercial Organizations. In addition, the applicant assures and certifies that:

- I. It possesses legal authority to apply for the grant; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body, authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.
- II. It will comply with requirements of the provisions of the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced as a result of federal and federally-assisted programs.
- III. It will comply with provisions of federal law which limit certain political activities of employees of a state or local unit of government whose principal employment is in connection with an activity financed in whole or in part by Federal grants. (5 USC 1501, et seq.)
- IV. It will comply with the minimum wage and maximum hour's provisions of the Federal Fair Labor Standards Act.
- V. It will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.
- VI. It will give the sponsoring agency or the Comptroller General, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the grant.
- VII. It will comply with all requirements imposed by the federal sponsoring agency concerning special requirements of law, program requirements, and other administrative requirements.
- VIII. It will insure that the facilities under its ownership, lease or supervision which shall be utilized in the accomplishment of the project are not listed on the Environmental Protection Agency's (EPA) list of Violating Facilities and that it will notify the Federal grantor agency of the receipt of any communication from the Director of the EPA Office of Federal Activities indicating that a facility to be used in the project is under consideration for listing by the EPA.
- IX. It will comply with the flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973, Public Law 93-234, 87 Stat. 975, approved December 31, 1976, Section 102(a) requires, on and after March 2, 1975, the purchase of flood insurance in communities where such insurance is available as a condition for the receipt of any Federal financial assistance for construction or acquisition purposes for use in any area that has been identified by the Secretary of the Department of Housing and Urban Development as an area having special flood hazards. The phrase "federal financial assistance" includes any form of loan, grant, guaranty, insurance payment, rebate, subsidy, disaster assistance loan or grant, or any other form of direct or indirect Federal assistance.
- X. Environmental and Historic Preservation Compliance. FEMA is required to consider the potential impacts to the human and natural environment of projects proposed for FEMA funding. FEMA, through its Environmental and Historic Preservation (EHP) Program, engages in a review process to ensure that FEMA-funded activities comply with various Federal laws including: National Environmental Policy Act, National Historic Preservation Act, Endangered Species Act, and Executive Orders on Floodplains (11988), Wetlands (11990) and Environmental Justice (12898).
 - a. Any project with the potential to impact EHP resources (see Section E.8) cannot be initiated until FEMA has completed its review. The sub-grantees shall provide any information requested by FEMA to ensure compliance with applicable Federal EHP requirements.

- b. Grantees may be required to provide detailed information about the project, including the following: location (street address or map coordinates); description of the project including any associated ground disturbance work, extent of modification of existing structures, construction equipment to be used, staging areas, access roads, etc.; year the existing facility was built; natural, biological, and/or cultural resources present in the project vicinity; visual documentation such as site and facility photographs, project plans, maps, etc; and possible project alternatives. For certain types of projects, FEMA must consult with other Federal, state and local agencies such as the U.S. Fish and Wildlife Service, State Historic Preservation Offices, and the U.S. Army Corps of Engineers, as well as other Federal, State, Local and Tribal Nations agencies and organizations responsible for protecting natural and cultural resources.
 - c. For projects with the potential to have significant adverse effects on the environment and/or historic properties, FEMA's EHP review and consultation may result in a substantive agreement between the involved parties outlining how the sub-grantee will avoid the effects, minimize the effects, or, if necessary, compensate for the effects. Because of the potential for significant adverse effects to EHP resources or public controversy, some projects may require an additional assessment or report, such as an Environmental Assessment, Biological Assessment, archaeological survey, cultural resources report, wetlands delineation, or other document, as well as a public comment period.
 - d. Sub-grantees are responsible for the preparation of such documents, as well as for the implementation of any treatment or mitigation measures identified during the EHP review that are necessary to address potential adverse impacts.
 - e. Failure of the sub-grantee to meet Federal, State, and local EHP requirements, obtain applicable permits, and comply with any conditions that may be placed on the project as the result of FEMA's EHP review may jeopardize Federal funding.

Nevada Exercise Program

INTRODUCTION

The Nevada Department of Public Safety, Division of Emergency Management (DEM) is committed to providing the Nevada emergency management community, emergency response professionals, volunteers, and the private sector with the means to produce quality exercises that improve the preparedness of the State of Nevada, its citizens and resources. This is accomplished through the use of a Statewide exercise program: the Nevada Exercise Program (NEP), which includes standardized policies, processes, products, and assistance in all aspects of exercises. The NEP is an all hazard, multi-discipline, multi-jurisdictional program that utilizes a building-block approach with exercises of increasing complexity and scope.

Exercises validate capabilities of individuals, teams, organizations and communities to prevent, protect, respond to, and recover from the effects of all emergency/disaster events. In order to successfully accomplish the validation of capabilities exercises need to have consistent processes for development, conduct, and evaluation. The Homeland Security Exercise and Evaluation Program (HSEEP) provides this consistency. All exercises conducted in Nevada, utilizing Federal grant funds, are required to adopt the principles and guidance provided in HSEEP.

Additionally, all exercises must be National Incident Management System (NIMS) compliant by meeting the following three criteria:

- Incorporate NIMS/ICS into training and exercises.
- Participate in an all-hazard exercise program based on NIMS that involves responders from multiple disciplines and multiple jurisdictions.
- Incorporate corrective actions into preparedness response plans and procedures.

NEP COMPONENTS

The NEP consists of seven components: 1) *Training and Exercise Plan Workshop*, 2) *Exercise Scheduling*, 3) *Standardized Process and Documents*, 4) *Reporting*, 5) *Corrective Action/Tracking*, 6) *Technical Assistance*, and 7) *Exercise Training Curriculum*. Each component is dependent on each other and ties in and supports the State of Nevada Strategic Plan, which in turn supports the National Strategy and Priorities.

Training and Exercise Plan Workshop. Each year the annual Training and Exercise Plan Workshop (T&EPW) will be conducted for all local jurisdictions, State and Federal agencies, and the private sector to identify training and exercise activities for the subsequent three years that support the State Strategy which in turn support the National Priorities. Prior to the T&EPW an Improvement Planning Conference is conducted to review the previous year's exercise and actual disaster events' After Action Report / Improvement Plan (AAR/IP) for areas that identify modifications to the State Strategy and any shifts in designated Target Capabilities.

A T&EPW Read Ahead Package is sent to participating jurisdictions, agencies and private sector participants to ensure that participants are prepared to address required information regarding training and exercise activities, targeted dates, associated costs, and identified Target Capabilities. The resulting Multi-Year Training and Exercise Plan (MYTEP) is produced, distributed, and periodically updated as modifications require.

Nevada Exercise Program

Exercise Scheduling. All exercises conducted in Nevada must be entered into a national database of exercises utilizing the National Exercise System (NEXS), an internet-based software program that captures basic statistical information. Each county-level jurisdiction will identify a NEXS point of contact who will serve as the Exercise Scheduler. The Scheduler has the ability to create new exercises as well as modify and delete any exercise they create in the database. They will also have “view-only” capability for any exercise within their Exercise Administrative Authority (EAA’s) domain: in this case, the State of Nevada. Exercise Schedulers can register at the U.S. Department of Homeland Security, Federal Emergency Management Agency USDHS/FEMA HSEEP homepage at <https://hseep.dhs.gov/>.

Each state will also have a State Exercise Administrative Authority (EAA) who has access authority over all exercises, users, and Exercise Schedulers within their scheduling domain (State of Nevada). The EAA is the Domain’s approving authority prior to an exercise appearing in the National Exercise Schedule Database. The EAA can create, modify and delete any exercise data on the National Exercise Schedule.

Standardized Process and Documents. All exercises conducted in Nevada must follow the standardized process and guidance of the HSEEP. HSEEP provides exercise documents/document formats and samples, planning conferences, and exercise concepts in all phases of an exercise (concept, design and development, conduct, evaluation, and follow-up corrective actions and tracking). The one single exercise document that must follow a prescribed format with a specified content and process is the AAR/IP.

Exercise guidance is provided in the form of HSEEP Manuals (HSEEP Volume I: Exercise Program Overview and Management; Volume II: Exercise Planning and Conduct; Volume III: Exercise Evaluation and Improvement Planning; and Volume IV: Templates and Samples) which can be accessed from the HSEEP homepage at <https://hseep.dhs.gov/>.

Exercise Reporting. All operations- and discussion-based exercises will result in an exercise After Action Report (AAR) within 60 days following the conduct of the exercise. The AAR will identify areas of success and areas requiring improvement describing the issue, analysis, any recommendations utilizing the Exercise Evaluation Guides (EEGs) of the 37 Target Capabilities List (TCL) as the basis for evaluation. The AAR format will follow guidance identified in HSEEP Manuals. The AAR will include an Improvement Plan (IP) as part of the AAR (see next section). One hard copy of the AAR/IP shall be submitted to the DEM Exercise Training Officer and one electronic copy of the AAR/IP shall be submitted via the Corrective Action Program System (CAPS) in the Nevada Folder with an email notifying the State of Nevada Exercise Training Officer of the submission. All AARs will be reviewed for HSEEP formatting compliance and forwarded to USDHS/FEMA as a condition for meeting minimum Federal grants and programs requirements.

Corrective Action/Tracking. As an annex to the exercise AAR, a process for identifying corrective actions and tracking them to completion will be utilized. This is the IP. The IP will identify the issue, recommended corrective action, assignments, and recommended completion date. The IP format will follow guidance identified in HSEEP Manuals. Use the web-based

Nevada Exercise Program

software program CAPS to electronically manage the identification and tracking of the IP portion of the AAR.

Technical Assistance. Technical assistance in any area of exercise design, conduct, and evaluation will be available from the State of Nevada Exercise Training Officer (NV ETO). The NV ETO will be available to answer questions regarding areas such as: HSEEP, NIMS exercise compliance, exercise documents, formats, suggestions, problems, NEXS and CAPS programs, best practices or training. On a limited basis the NV ETO can assist as a member of a local exercise planning teams during any phase of an exercise as well as offer exercise-specific training, workshops, and seminars.

Web-based exercise assistance, information, guidance, and a variety of toolkits are also available at the USDHS/FEMA HSEEP homepage (<https://hseep.dhs.gov/>) as well as the USDHS/FEMA NEXS and CAPS systems

(https://hseep.dhs.gov/DHS_SSO/?ReturnUrl=%2fhseep_em%2fToolkitHome.aspx). The secure portal requires a request by email from the requestor prior to gaining access to it.

Exercise Training Curriculum. A variety of exercise training courses will be offered throughout Nevada on a limited basis as either resident courses or as jurisdictional-hosted courses. Samples of the Exercise Curriculum includes: HSEEP Mobile Course, Exercise Design and Development, Exercise Evaluation, Exercise Control/Simulation, and Exercise Program Manager. Several Workshops are available that address evaluator/controller training, exercise planning teams, and simulations/moulage. The Master Exercise Practitioner Program, a Federal Emergency Management Agency program offered by the Emergency Management Institute in Emmitsburg, Maryland and administered by the Nevada Exercise Training Officer, provides training and certification as a Master Exercise Practitioner (MEP).
