The quantity of the above contingent item(s) of work, as set forth on the quote schedule represent no actual estimate, is nominal only and may be greatly increased or decreased or reduced to zero. The increase or reduction of this quantity as compared with that set forth on the informal quote schedule shall not constitute a basis for claim by the Contractor for extra payment or damages.

City of Sparks reserves the right and privilege to accept or reject any or all quotes or parts thereof, based solely on the judgment of representatives of the City of Sparks.

INFORMAL QUOTE ITEM CLARIFICATION

ROCK BOULEVARD SEWER CROSSING REPLACEMENT PROJECT

GENERAL INFORMATION

Unless indicated otherwise within the specific quote item as described in this section, the Engineer's estimated quantity as contained in the quote schedule shall be the final pay quantity. For quote items measured in lineal feet, the quantities are estimated by taking the horizontal projected lengths. For quote items measured in square feet, the quantities are estimated by taking the horizontal projected areas.

The Engineer's estimated quantity, as contained in the quote schedule, is based on the details and dimensions shown on the plans, and no guarantee is made that the quantity, which can be determined by measurements and computations, will equal the estimated quantity. No allowance will be made in the event that the quantity based on measurements and computations does not equal the estimated quantity.

In case of discrepancy between the quantity contained in the quote schedule and the quantity or summation of quantities for the same item shown on the plans, payment will be based on the quantity contained in the quote schedule.

If the quantity of a particular item of work is intentionally increased or decreased during construction, the final pay quantity of that item will be adjusted to reflect the change.

Item 1 – Traffic control and permits

This item shall include providing all labor, materials, supplies, equipment, services and other incidentals necessary for mobilization, demobilization, obtaining all required insurance, bonds, permits, site BMP's, site dust control, and project traffic control as set forth in these plans and specifications. Work shall be performed over a "marathon" weekend, generally 7 p.m. on a Friday evening until 5 a.m. the following Monday, or as otherwise required by NDOT District II.

Payment for this item will be lump sum.

Item 2 – 8" Epoxy lined ductile iron pipe

The unit price bid shall include the installation of 8" Protecto 401 lined Ductile Iron Pipe (Tyton Joint), or approved equal. Item shall include, but not be limited to all labor and materials, removal of existing 8" clay pipe and disposal, adaptor and transition fittings, equipment, tools, excavation, trenching, bedding material, backfill, compaction, bypass pumping and monitoring that may be required, and all incidentals necessary for a complete installation at the locations shown on the plans.

Payment will be on an installed quantity basis.

Item 3 – Pour-in-place sanitary sewer manhole, flat top

The unit price bid shall include construction of a Type I-B sanitary sewer manhole, but not be limited to all labor, materials, equipment, tools, excavation, dewatering that may be necessary, backfill, adjusting rim, constructing concrete collar, and all incidentals necessary to complete the work at the locations as shown on the plans.

Payment will be on an installed quantity basis.

Item 4 – Removal of existing 11” PCC roadway surface and replacement with 11” Type II C AC

This item shall include providing all labor, materials, equipment, services, sawcutting, removal, grading, base preparation, compaction, Type 2 Base, AC patch, striping, and other incidentals necessary per the plans and specifications. Existing pavement section is estimated to be 11” in thickness. Pavement removal shall be to the nearest joint.

Payment will be on an installed quantity basis.

Item 5 – Miscellaneous surface replacement

This item shall include providing all labor, materials, supplies, equipment, services and other incidentals necessary for replacing surfaces removed (excluding PCC roadway surface) during installation of pipeline and manholes, including sidewalk, curb and gutter, alley paving, and others as impacted in accordance with the plans and specifications.

Payment will be on a Lump Sum basis

Item 6 – Force Account

A force account has been established for this project and shall be included in each quote. The force account will be utilized only as necessary for extra work authorized and approved in advance by the City of Sparks representative.

TECHNICAL SPECIFICATIONS

ROCK BOULEVARD SEWER CROSSING REPLACEMENT PROJECT

All work shall be completed in accordance with the plans, the "Standard Specifications for Public Works Construction (Orange Book)", current edition, as adopted by the City of Sparks, Nevada, and the NDOT "Standard Plans for Road and Bridge Construction", current edition.
