SCOPE OF WORK

The scope of work includes the installation of single mode fiber from City Hall to the Muni-Court building, Muni-Court to Fire Station #1, and from Muni-Court to a traffic box on Victorian Avenue. The Fiber will be placed within existing conduit with existing fiber to be abandoned in place. Work shall include all incidentals necessary to complete the project per attached specifications and location maps.

BASE QUOTE					
Item No.	Quantity	Unit	Description	Unit Price	Total Price
1	6,300	LS	Furnish and install single mode fiber, provide termination, rack mounted splice cassettes at each end, and all required traffic control from City Hall to Muni-Court, complete in place, per lump sum.	\$ 6.25 /LS	\$ 39,375.00
2	1,300	LS	Furnish and install single mode fiber, provide termination, rack mounted splice cassettes at each end, and all required traffic control from Muni-Court to Fire Station #1, complete in place, per lump sum.	\$ 6.25 /LS	\$ 8,125.00
3	900	LS	Furnish and install single mode fiber, provide termination, rack mounted splice cassettes at each end, and all required traffic control from Muni-Court to traffic cabinet on the corner of Victorian Plaza Circle and Victorian Avenue, complete in place, per lump sum.	\$ 6.25 /LS	\$ 5,625.00
4	FA	FA	Force account – Work as Authorized by the Engineer.	\$5,000.00	<u>\$5,000.00</u>

TOTAL BASE QUOTE \$ 58,125.00

(Written amount) Fifty-eight thousand, one hundred, twenty-five dollars and XX/100 cents

Note: 1. The City of Sparks has the option to accept or reject any item number within the base quote dependent on budget available to complete the project.
2. See the Base Quote Clarifications within this quote for additional details on the scope of this quote.

City of Sparks reserves the right and privilege to accept or reject any or all quotes or parts thereof, based solely on the judgment of representatives of the City of Sparks.

INFORMAL QUOTE
FIBER REPLACEMENT FROM CITY HALL TO MUNI-COURT

Unless indicated otherwise within the specific quote item as described in this section, the Engineer's estimated quantity as contained in the quote schedule shall be the final pay quantity. For quote items measured in lineal feet, the quantities are estimated by taking the horizontal projected lengths. For quote items measured in square feet, the quantities are estimated by taking the horizontal projected areas.

The Engineer's estimated quantity, as contained in the quote schedule, is based on the details and dimensions shown on the plans, and no guarantee is made that the quantity, which can be determined by measurements and computations, will equal the estimated quantity. No allowance will be made in the event that the quantity based on measurements and computations does not equal the estimated quantity.

In case of discrepancy between the quantity contained in the quote schedule and the quantity or summation of quantities for the same item shown on the plans, payment will be based on the quantity contained in the quote schedule.

If the quantity of a particular item of work is intentionally increased or decreased during construction, the final pay quantity of that item will be adjusted to reflect the change.

BASE QUOTE CLARIFICATIONS:

Item 1 – Furnish and install single mode fiber from City Hall to Muni- Court

This item shall include all labor, materials, supplies, equipment, services and other incidentals necessary for the installation and termination of 24 count single mode fiber from City Hall to the Muni-Court Building as shown on the attached map along with a new rack mounted splice cassette and cable required to provide the final termination of the single mode fiber at each end of the cable at each location. The quote shall include All traffic control, mobilization and equipment required to install and terminate the new fiber. A traffic control plan shall be submitted to the city for approval prior to beginning any work. The existing fiber will be abandoned in place after all connections are made and the new fiber is operational. Large vaults shall have 100 ft of slack and shallow vaults shall have 50 ft of slack minimum along with adequate slack at the termination locations. Payment will be on a per lump sum basis. The estimated distance between locations and vault locations are noted on the attached map for each item.

Item 2 – Furnish and install single mode fiber from the Muni-Court Building to Fire Station #1

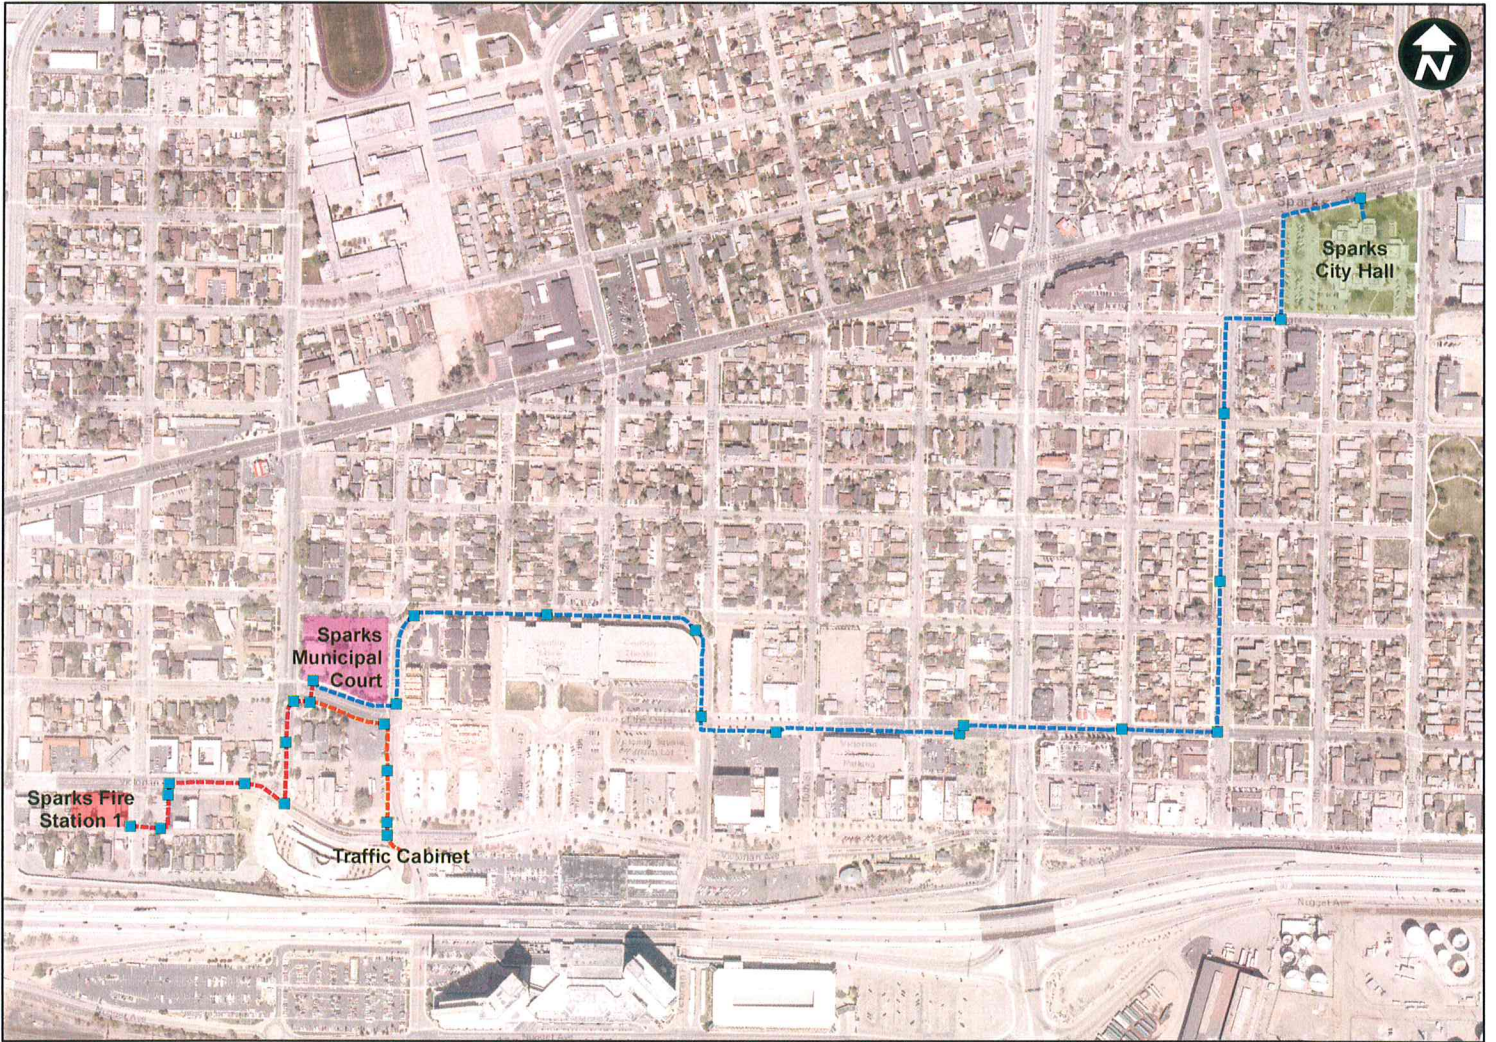

This item shall include all labor, materials, supplies, equipment, services and other incidentals necessary for the installation and termination of 24 count single mode fiber from the Muni-Court Building to Fire Station #1 as shown on the attached map along with a new rack mounted splice cassette and cable required to provide the final termination of the single mode fiber at each end of the cable at each location. All traffic control, mobilization and equipment shall be included in the price of the bid. A traffic control plan shall be submitted to the city for approval prior to beginning any work. The existing fiber will be abandoned in place after all connections are made and the new fiber is operational. Large vaults shall have 100 ft of slack and shallow vaults shall have 50 ft of slack minimum along with adequate slack at the termination locations. Payment will be on a per lump sum basis. The estimated distance between locations and vault locations are noted on the attached map for each item.

Item 3 – Furnish and install single mode fiber from the Muni-Court Building to a traffic cabinet

This item shall include all labor, materials, supplies, equipment, services and other incidentals necessary for the installation and termination of 24 count single mode fiber from the Muni-Court Building to the traffic cabinet as shown on the attached map along with a new rack mounted splice cassette and cable required to provide the final termination of the single mode fiber at each end of the cable at each location. All traffic control, mobilization and equipment shall be included in the price of the bid. A traffic control plan shall be submitted to the city for approval prior to beginning any work. The existing fiber will be abandoned in place after all connections are made and the new fiber is operational. Large vaults shall have 100 ft of slack and shallow vaults shall have 50 ft of slack minimum along with adequate slack at the termination locations. Payment will be on a per lump sum basis. The estimated distance between locations and vault locations are noted on the attached map for each item.

Item 4 – Force Account

A force account has been established for this project and shall be included in each quote. The force account will be utilized only as necessary for extra work authorized and approved in advance by the City of Sparks project manager.
