I am a downtown resident in the Palladio building. I want to convey my strong support for the cooperative project toward relieving homelessness in our community. Thank you to Reno, Sparks, and Washoe County for working together to make a plan to address this big problem!

***Re: November 18 Concurrent Meeting Agenda Item 11:  
Support of Nevada Cares Campus***

Dear Councilmembers and Commissioners:

On behalf of Caesars Entertainment and the ROW Properties, we strongly support the proposed purchase and development of the *Nevada Cares Campus* in response to the COVID-19 pandemic health crisis and the creation of a new, centralized location on the *Nevada Cares Campus* for homeless sheltering, public meals services, transitional housing and other wrap services. The impacts of the pandemic have made already difficult conditions for at-risk populations worse and have exacerbated the need for centralized services. We commend Reno, Sparks and Washoe County for their regional cooperation and vision in creating this unique opportunity to consolidate these critical services and extend our thanks to Governor Sisolak and our elected leaders in Reno, Sparks and Washoe County for making this opportunity possible. We remain committed to working with our local government partners and other affected entities to facilitate the development of the *Nevada Cares Campus* and consolidation of the regional homeless services and welcome discussions to identify opportunities for the ROW to further contribute to these efforts.

Sincerely,

Gary Carano

Hello everyone, we hope you have a productive meeting today. My name is Tyler Stewart and I'm writing on behalf of the Young Democratic Socialists of Reno. We're writing because we are concerned about our homeless population this winter. As you are all well aware, our city can get deadly cold in the winter and with the pandemic impacting our health as well as housing, shelter, and income, tasks to provide shelter have become a bit trickier. With the purchase of the Governors Bowl Park we ought to have a good space to house our 1000 some unsheltered folk, but we need to get building soon. We will need safety procedures and proper PPE for our volunteers and paid staff. We are by no means experts in setting up temporary shelters, but we wanted to make sure our representatives are keeping winter shelter in mind and how we can protect our more vulnerable community members sooner rather than later. Thank you for your time and we hope you have a wonderful day.

<b>Your Comment</b>	Dear Esteemed Council Members and Commissioners, Homelessness is initiated and experienced in myriad ways; thus, solutions must be robust and diverse enough to meet

these individual needs. Our community needs a spectrum of solutions from safe camps, emergency shelters, bridge housing, transitional housing, to permanent housing. I applaud your efforts to take this first step toward acquiring a large parcel to accommodate a variety of solutions the community has put forward to your jurisdictional bodies. I also want to emphasize that options such as emergency shelter should be temporary stops towards permanent housing. While emergency sheltering options are crucial to addressing homelessness, housing is crucial to ending homelessness. I know that given the current public health and economic situation we find ourselves in presents so many challenges for our community, it is essential that we work on small actions we can take together to lift others as we would want to be lifted. I urge you all to take action on this incredible opportunity to build a campus to lift people experiencing homelessness. I especially urge you all to retain the plans for a safe camp and affordable housing as outlined in the staff report and Neoma Jardon. I am intimately acquainted with the experience of having the support I needed to recover from homelessness and heroin addiction. It took people believing in me more than I was capable of believing in myself and envisioning more than I could see for my life at the time. I hope that with this proposal is a plan to believe in people, listen to them, and envision a future bigger than a warehouse of people. Thank you for all you do to improve the lives of our neighbors.

Thank you,  
Lisa Lee, M.A., CPRSS

I am a member of the Ward One Neighborhood Advisory Board and I support the proposed purchase of land at the Governors Bowl for the Nevada Cares Campus. As you know, Ward One, having a lot of land along the Truckee River, is highly impacted by the homeless camps. I believe that we should support anything that will help this vulnerable population. This plan should be supported as a big step in the right direction. Bravo to the council for this considering this issue in a big way

**My name is Mary Mentor Barry. I'm a realtor with Dickson Realty. I'm calling to comment on a cares campus. I support that effort period or really needs to be a solution to our homeless problem downtown and relocating the homeless shelter and related agency to another part of town. That isn't close to downtown. Reno is extremely important period the current situation is detrimental to our tourism population and is an also detrimental to those of us who live and work in Reno.please work together city and county to improve our situation period Thank you period**

**Hello, this is Mackay Murdoch, and I'm calling in support of agenda item 11 and the purchase in development of the Nevada cares campus and the use of care spawns to assist the address population. Thank you for working together on this regional position. I am a student at the University of Nevada. And I'm also the president of the University of Nevada Boxing Club our Boxing Club in right on 4th Street. So we do encounter a majority of the homeless population on a daily basis when we are in season being the only FEMA on the team. It is very nerve racking to be there alone and work out by myself, which I don't have the luxury of the same luxury as my mail key made. So yeah, I'm just calling and I hope that this goes well, thank you for hearing our voices. Hope you all have a great day. Thank you.**

**Yes, this is Sharon Ellis calling. I am a downtown resident. I support agenda item number 11 and the purchase and development of the Nevada cares campus. I am the leader of the team that brought the biggest little dog park to downtown almost every day. There is a homeless person with a shopping card a wheelchair or Walker laying up against the payroll which are part of the park. These portraits are very personal to the people that made donations to have their pets painted and it is very disheartening to see them abused and disrespected by people. These people need a safe place to go and the use of their funds to create the state is absolutely necessary. We are grateful for your work to make this happen. Thank you.**
