SCHEDULE A
DESCRIPTION OF PROJECT

PURPOSE

PROBLEM STATEMENT:

The Sparks Police Department is striving to meet the paperless requirement for crash data input and paperless citations. It is the department's desire to complete timely, efficient and accurate crash data while on scene of a collision. Many officers are assigned the handheld devices while others complete paper drafts for input at a later time on their shifts or they use the cumbersome website to enter data while in the field. Those officers who do this are still limited to paper citations which still results in a delay to court.

The goal of Traffic Supervisor, Sergeant Marlene Cleveland, is to equip each vehicle with a handheld device in addition to the devices assigned to officers. Currently, the department has assigned specific vehicles to officers to insure proper maintenance, availability and use of the vehicle. Additional devices will be placed in the vehicles to insure access and use of the device to increase the likelihood crash data is entered on scene. Additionally, the courts have immediate access to all electronic citations with the use of the handheld devices which streamlines the process between the courts and the department.

LOCAL DATA:

Sgt. Cleveland, our traffic supervisor, has expressed the need to grow our program and meet the demand utilizing the electronic crash/citation methods for timely and accurate data entry on all shifts by all patrol officers and officers on Joining Force overtime.

CAUSE:

Officers share the current limited number of handhelds which conflicts when there is a schedule overlap for the shifts officers work. Placing a device in each assigned patrol vehicle (which is used by a minimum of two officers on opposing shifts) will ensure each working patrol officer will have a device for his/her given shift to meet our crash data goals. There is a higher likelihood the devices will be well cared for, charged and used when assigned as the patrol vehicles have been as well thus insuring regular use.

COUNTERMEASURES:

The easiest solution is to purchase a handheld device for every officer to meet our goal of being paperless, to meet the objective of timely and accurate crash data uploads and proactively write citations for crash causing driving behaviors. Officers have expressed that they enjoy the use of the handhelds and find them time saving when the license and VIN readers are available as well. With scanners, proficiency, ease of use, familiarity and drop down menus readily available at their fingertips, officers are able to quickly enter crash data and use the extra patrol time wisely focusing on traffic patrols in high crash locations.

GOALS:

To purchase Brazos handheld devices and place one in each patrol vehicle assigned to a minimum of two officers.

OBJECTIVES

MEASURABLE STEPS / TIMELINE:

The department intends to decrease the limited availability of Brazos handhelds for our officers. Ideally, the goal is to place a device in the hands of each officer.

SELF SUSTAINABLE:

Handhelds will be placed in each patrol vehicle increasing responsibility for the device and insuring its availability for use in collisions and traffic enforcement.

It is expected that there will be increased and successful use of the device to enter crash data and an assigned device will last longer

ACTIVITIES:

Once the grant is approved, our agency will generate a purchase order for five handheld devices and place them immediately in the field as discussed.

OTHER REQUIRED ACTIVITIES:

1. All law enforcement agencies are required to report motor vehicle fatality data to Nevada's Fatality Analysis Reporting System (FARS) analyst at the Nevada Office of Traffic Safety, 4615 W. Sunset Rd, Las Vegas NV 89118, fax: 702.432.5377, or NV@fars.us
2. All law enforcement agencies are required to send their motor vehicle crash reports per NRS 484.219, et seq., electronically or manually to the Department of Public Safety/NCATS database and as otherwise required by state law.
3. Hold a press conference or submit press release to local newspaper(s) detailing the program, funding source, goals and objectives and the probable outcome within 30 days of receipt of Authorization to Proceed.
4. Track, account for and report all in-kind contributions pertaining to this project. Vehicle operation and maintenance, in addition to officer and supervisor salaries/benefits when not in a grant overtime mode, are examples of in-kind contributions.
5. Submit monthly progress reports detailing the status of each objective and activity by the 15th of the following month, as well as final *Annual* report summarizing the project's accomplishments or shortcomings by October 31. **Progress reports should include** copies of any reports, documents, press releases, promotional items, and print media coverage related to the grant project. **It is suggested that a claim for reimbursement for each month accompany the progress report.**

CLAIMS FOR REIMBURSEMENT:

Claims for reimbursement must be submitted in the e-Grants system. Claims must be submitted at least quarterly, if any grant project expenses were incurred and paid during that quarter. Reimbursement claims may be submitted monthly with the progress report.

Your agency/organization is ultimately responsible for verifying that claims for reimbursement, including timesheets for personnel costs, are accurate and that statistics or other data submitted to OTS are correct and valid.

Only costs included in the Project Agreement budget can be claimed. Costs must be for goods and services received during the grant period. If costs incurred were not included in the budget, they become in-kind contributions. In-kind contribution amounts should be reported on your claim. **Back-up documentation for all expenses claimed is required to be uploaded/attached within the Nevada eGrants system.**

Deadline for Filing Reimbursement Claims

Federal grant projects end on September 30 of each fiscal year. **All final claims must be filed within 30 days following the end of the fiscal year or the expiration of the project, whichever comes first.**

Any claim received after the final deadline (October 31) cannot be honored.

EVALUATION:

The project will be successful upon the purchase of the devices and their deployment with individual officers.
