**Tactical Team for the Protection of Animals (All Animals)
T.T.P.A.**

DATABASE/ REGISTRY TRACKING SYSTEM

**FOR THE PROTECTION OF ANIMALS
(FTPOA)**

March 5, 2015

This database/ registry will be linked into every shelter, pet shops, dog breeders, puppy mills, Cat mills, and every type of shelter that houses any animals for sale or adoption.

The software to link all shelters will be called (FTPOA) tracking system. Known as: For the Protection of Animals.

This will be a program that is needed for every state and every city in the United States. It will first be launched in the state of Nevada, from here it can carry over through each states own legislation and legislators if they choose to adopt this program. This will save thousands of animals, lives every year from predators who try to get animals when they have been forbidden from law enforcement and the courts.

Anyone who has been arrested and convicted for dog fighting, animal abuse, killing of animals, specific dog breeders, puppy mills, cat mills.

Once their driver's license number, or their state identification card, or social security number is put into the shelters computer system and it comes back that they have been denied any animals their name and information will be flagged, which in turn will activate a wants and warrants. This will work for prior arrests, current arrests, and future arrests, because the perpetrators information will be entered into the National Crime Information Computer.

This is a program that is nationally and state wanted for the protection of all animals and is badly needed to prevent unlawful acts against animals who suffer at the hands of criminals.

As soon as a Legislative bill is written and is passed this important program can be released.

Update: May 21, 2015

I, Karen Jacobs am the author of this database/registry, FTPOA. It can be released once a Legislative bill has been written and passed.

I, Karen Jacobs have a 501c (3) (pending) organization called TACTICAL TEAM FOR THE PROTECTION OF ANIMALS (all animals) T.T.P.A. I Am The Director. I am the author of this program as well.

This Is an Educational Program That Myself and Other Law Enforcement Are Bringing To Our Schools.
