SECTION 5. Section 15.05.101.2: “Scope” is hereby amended as follows:

Section 15.05.101.2 – Scope

The provisions of this code shall apply to the construction, alteration, ~~movement~~ relocation, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such

Title 15 – BUILDINGS AND CONSTRUCTION

buildings or structures.

Exception: detached one- and two-family dwellings and townhouses not more than three stories above grade in height with a separate means of egress and their accessory structures need only apply with the provisions of the International Residential Code.

(Ord. 2399, Add, 05/12/2008)

SECTION 6. Section 15.05.103.10.1. “Flood hazard areas” is hereby added as follows:

Section 15.05.103.10.1 Flood hazard areas.

The building official shall not grant modifications to any provisions required in flood hazard areas as established by Section 1612.3 unless a determination has been made that:

- 1. A showing of good and sufficient cause that the unique characteristics of the size, configuration or topography of the site render the elevation standards of Section 1612 inappropriate.*
- 2. A determination that failure to grant the variance would result in exceptional hardship by rendering the lot undevelopable.*
- 3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, cause fraud on or victimization of the public, or conflict with existing laws or ordinances.*
- 4. A determination that a variance is the minimum necessary to afford relief, considering the flood hazard.*
- 5. Submission to the applicant of written notice specifying the difference between the design flood elevation and the elevation to which the building is to be built, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation, and stating that construction below the design flood elevation increases risk to life and property.*

(Ord. 2399, Add, 05/12/2008)

SECTION 7. Section 15.05.104.2 – “Work exempt from permit” is hereby amended as follows:

Section 15.05.104.2 - Work exempt from permit.

Exemptions from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following:

Building:

1. One-story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed ~~420~~ 200 square feet (~~44~~ 18.58 m²), does not include electrical, mechanical, or plumbing, and the location is within the setbacks defined in SMC Title 20

Title 15 – BUILDINGS AND CONSTRUCTION

2. Fences not over 30 inches (762 mm) high *or residential interior fences not over six feet (1829 mm) high in rear yards without permanent foundations and not used as swimming pool barriers or as required screening defined in SMC Title 20.*
3. Oil derricks.
4. Retaining walls or rockery walls that are not over ~~30~~ 48 inches (762 1219 mm) in height measured from adjacent grades. Walls must not support a surcharge or impound Class I, II or IIIA liquids.
5. Water tanks supported directly on grade if the capacity does not exceed 5,000 gallons (18,925 L) and the ratio of height to diameter or width does not exceed 2:1.
6. Patios, sidewalks and driveways not more than 30 inches (762 mm) above adjacent grade, and not over any basement or story below, and not part of an accessible route.
7. Painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work.
8. Temporary (*not to exceed 180 days*) motion picture, television and theater stage sets and scenery.
9. Prefabricated swimming pools accessory to a Group R-3 occupancy that are less than 24 inches (610 mm) deep, do not exceed 5,000 gallons (18,925 L) and are installed entirely above ground.
10. Shade cloth structures constructed for nursery or agricultural purposes, not including service systems.
11. Swings and other playground equipment accessory to detached one- and two-family dwellings.
12. Window awnings supported by an exterior wall that do not project more than 54 inches (1372 mm) from the exterior wall and do not project more than 24 inches (610 mm) into any setback and do not require additional support; Group R-3 and U occupancies only.
13. Nonfixed and movable fixtures, cases, racks, counters and partitions not over 5 feet 9 inches (1753 mm) in height.
14. Roofing repair if the roof is less than 100 square feet or still under its one year warranty.
15. *Replacing Stucco or Drywall (Not exceeding 100 square feet in area.)*
16. *Residential* door and window replacement when the opening size and location remain the same and meets the adopted energy code requirements.
17. *For glass only replacements (in commercial store fronts) in an existing sash and frame, when minor in scope and located in the same elevation.*
18. Repair or replacement of fences less than 100 linear feet long with the same material, in the same location and at the same height.
19. Siding applied over existing siding or existing shear wall.
20. Decks not more than 30 inches (762 mm) above grade.
21. Replacement of glazing or replacement of glazing in hazardous locations with safety glazing.

Title 15 – BUILDINGS AND CONSTRUCTION

22. *Grading under 50 cubic yards (38.23 m³)*
23. *Membrane-covered frame structures which are not more than 400 square feet (37.21 m²) in area, not more than 15 feet (4576 mm) in height, meets required setbacks. Installed per the manufacturer's recommendation; with no associated electrical, plumbing, or mechanical, and maintains a minimum clearance of 5 feet (1524 mm) from other buildings.*

Electrical:

Repairs and maintenance:

1. Minor repair work, including the replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.
2. Reinstallations of attachment plug receptacles, but not the outlets therefore.
3. Repair or replacement of branch circuit over-current devices of the required capacity in the same location.
4. Repair or replacement of current carrying parts of any switch, contactor or control device.
5. Repair or replacement of electrodes or transformers of the same size and capacity for signs or gas tube systems.
6. Repair or replacement of fixed motors, transformers or fixed approved appliances of the same type and rating in the same location.
7. Removal of electrical wire, coax or communication wire.
8. *Replacement of light fixtures in single family and residential accessory structures.*

Temporary uses:

1. Listed cord and plug connected temporary decorative lighting.
2. Listed temporary construction lighting or wiring.
3. Carnivals and circuses.
4. Installation of any temporary system required for the testing or servicing of electrical equipment or apparatus.
5. Temporary wiring for experimental purposes in suitable experimental laboratories.

Electrical wiring, devices and appliances: Electrical wiring, devices, appliances, apparatus or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.

Radio and television transmitting stations: The provisions of this code shall not apply to electrical equipment used for radio and television transmissions, but do apply to equipment and wiring for a power supply and the installations of towers and antennas.

Public or private utilities: The provisions of this code shall not apply to the installation, alteration or repair of electrical wiring, apparatus or equipment or the generation, transmission, distribution or metering or electrical energy or in the operation of signals or the transmission of intelligence by a public or private utility in the exercise of its function as a serving utility.

Title 15 – BUILDINGS AND CONSTRUCTION

Gas:

1. Portable heating appliance.
2. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.
3. Portable fuel cell appliances that are not connected to a fixed piping system and are not connected to a power grid.

Mechanical:

1. Portable heating appliance.
2. Portable ventilation equipment.
3. Portable cooling unit.
4. Steam, hot or chilled water piping within any heating or cooling equipment regulated by this code.
5. Replacement of any part that does not alter approval of equipment or make such equipment unsafe.
6. Portable evaporative cooler.
7. Self-contained refrigeration system containing 10 pounds (5 kg) or less of refrigerant and actuated by motors of 1 horsepower (746 W) or less.

Plumbing:

1. The stopping of leaks in drains, water, soil, waste or vent pipe, provided, however, that if any concealed trap, drain pipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this code.
2. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures and the replacement valves and fixtures, provided such repairs or replacements do not involve or require the replacement or rearrangement of any concealed water, soil, waste or vent piping.

(Ord. 2399, Add, 05/12/2008)

SECTION 8. Section 15.05.104.3.2 – “Time limitation of application” is hereby amended as follows:

Section 15.05.104.3.2 - Time limitation of application.

An application for a permit for any proposed work shall be deemed to have been abandoned 180 days after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one *or more* extension of time for an additional period not exceeding 180 days. The extension shall be requested in writing and justifiable cause demonstrated.

Title 15 – BUILDINGS AND CONSTRUCTION

(Ord. 2399, Add, 05/12/2008)

SECTION 9. Section 15.05.104.5 – “Expiration” is hereby amended as follows:

Section 15.05.104.5 - Expiration.

Every permit issued by the building official under the provisions of this code shall become invalid unless the work on the site authorized by such permit is commenced within 180 days after its issuance, or if the work authorized on the site by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The building official is authorized to grant in writing, one or more extensions of time, for periods not more than 180 days each. *The extension shall be requested in writing and justifiable cause demonstrated. In order to renew action on a permit after expiration, the permittee shall pay one half the building permit fee.*

(Ord. 2399, Add, 05/12/2008)

SECTION 10. Section 15.05.104.8 – “Floor and Roof Design Loads” is hereby added as follows:

Section 15.05.104.8 Floor and Roof Design Loads

Live loads posted. Where the live loads for which each floor or portion thereof of a commercial or industrial building is or has been designed to exceed 5 psf (2.40kN/m²), such design live loads shall be conspicuously posted by the owner in that part of each story in which they apply, using durable signs. It shall be unlawful to remove or deface such notices.

Restrictions on loading. It shall be unlawful to place, or cause or permit to be placed, on any floor or roof of a building, structure or portion thereof, a load that is greater than permitted by this code.

SECTION 11. Section 15.05.108.7 – “Reinspections” is hereby added as follows:

Section 15.05.108.7 – Reinspections

A reinspection fee may be assessed for each inspection or reinspection when such portion of work for which inspection is called is not complete or when corrections called for are not made. This section is not to be interpreted as requiring reinspection fees for the first time a job is rejected for failure to comply with the requirements of the technical codes, but as controlling the practice of calling for inspections before the job is ready for such inspection or reinspection. Reinspection fees may be assessed when the inspection record card is not posted or otherwise available on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which inspection is requested, or for deviating from plans requiring the approval of the building official.

To obtain a reinspection, the applicant shall pay the reinspection fee of two hours minimum in accordance with the schedule as established by resolution of the City Council. In instances where

Title 15 – BUILDINGS AND CONSTRUCTION

reinspection fees have been assessed, additional inspection of the work will not be performed until the required fees have been paid.

SECTION 12. Section 15.05.112.4 – “Violation penalties” is hereby added as follows:

Section 15.05.112.4 - Violation penalties

Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of this code, shall be subject to penalties as prescribed by law. Any person, firm or corporation violating any of the provisions of this code is deemed guilty of a misdemeanor, and each person is guilty of a separate offense for each and every day or portion thereof during which any violation of the provisions of this code is committed, continued or permitted. Upon conviction of any such violation such person shall be punished by a fine of not more than one thousand dollars (\$1,000.00), or by imprisonment for not more than six (6) months, or by both such fine and imprisonment.

The building official or his authorized inspectors or employees may issue misdemeanor citations for the violations.

(Ord. 2399, Add, 05/12/2008)

SECTION 13. Section 15.05.114.6 – “Workmanship and Fabrication” is hereby added as follows:

Section 15.05.114.6 - Workmanship and Fabrication

All design, construction and workmanship shall be in conformity with accepted engineering and good trade practice and be of such character as to secure the results sought to be obtained by this code.

SECTION 14. Section 15.05.114.7 – “Moving and Demolition is hereby added as follows:

Section 15.05.114.7 - Moving and Demolition

Except as otherwise provided, it shall be unlawful for any person to move any existing building or structure of any kind or description into or within the City of Sparks, or demolish a building or structure without a permit to move or demolish a building or structure as hereinafter provided. This section does not apply to mobile homes, trailers or other structures permanently affixed on wheels. Application for a permit to move or demolish a building or structure shall be filed as provided for in Section 15.05.104.3.

Title 15 – BUILDINGS AND CONSTRUCTION

SECTION 15. Chapter 15.06 - "BUILDING SECURITY CODE" is hereby repealed in its entirety:

~~Chapter 15.06 – BUILDING SECURITY CODE~~

~~Sections:~~
