

Now Offering Chemical Dependency and Detoxification Treatment Programs

CALL US TODAY FOR A FREE, CONFIDENTIAL ASSESSMENT - 775-393-2201

Reno Behavioral Healthcare Hospital's Chemical Dependency and Detoxification Inpatient Program offers a specialized drug treatment approach for those affected by addiction to alcohol or drugs. Our services are shaped by the unique needs of each patient, as well as their family members and loved ones. We provide:

- Individualized treatment and recovery plan
- Flexibility to include both traditional and modern approaches to care

Common Issues Treated in Substance Abuse Programs

- Alcohol and Drug Abuse
- Anxiety
- Urges and Cravings
- Depression/Mood Swings
- Post-Acute Withdrawal Symptoms
- Relapse/Recovery Strategies

Components to Addiction Treatment

Comprehensive Drug and Alcohol Treatment requires care and support for every person affected. All patients at Reno Behavioral Healthcare Hospital receive treatment that helps them not only understand their addiction, but lays the foundation for continued recovery in the future. Our comprehensive treatment includes:

- Addiction Cycle Education
- Stress Management
- Group Therapy
- Individual Therapy
- Family Therapy
- Resiliency in recovery
