Henderson's liquid application system can be used for more than just snow and ice prevention. The Henderson LAS can be used for Anti-icing, De-icing, Dust Control, Weed Control, Water Transporting, Plant Watering, Soil Stabilization and Fire Control. You can have it all with just one unit from ...

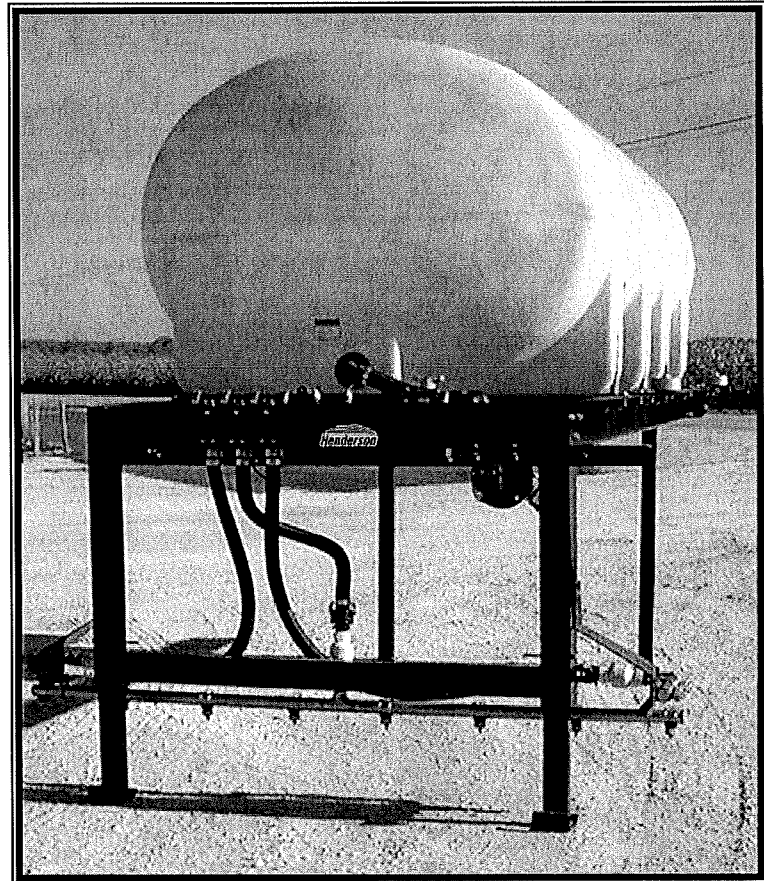

The Dependable Ones

The LAS has the following features:

- One, two, or three lane applications
- Slips easily into a dump body with the help of front and side wheel glides
- Glass filled polypropylene fittings for good resistance to corrosion and impact
- Manifold style fittings for ease of service
- Clip-on nozzle bodies
- Powder coated mild steel or 304 stainless steel models.

Compatible with Any Standard Controller:

- Force America
- Component Technology
- Raven Industries
- Dickey-john
- Micro Trak
