

Taken from Page 52:

## **MARINA RV PARK**

- The sign will be located along Lincoln Way. The sign will have architectural character matching that of the office/clubhouse. The designated design concept is nautical, and the building and signs shall be consistent.
- Directional, identification and traffic control signs shall be per Sparks City codes and standards.
- Maximum sign height for the RV Park shall be 20 feet.
- The sign shall be designed so that any pole is covered by an architectural element consistent with the project architecture and the standards contained within this Handbook.
- See Figure 23 for Signage Concept Plan and ~~Figure 24 for RV Park Sign Illustration.~~
