The council finds that the enforcement of the Sparks Municipal Code ("Code") throughout the City is an important public service, and enforcement of the Code is vital to protection of the public's health, safety and quality of life. The council recognizes that enforcement starts with the implementation of regulations that can be applied in administrative enforcement hearings and appropriate appeals. The council further finds that a comprehensive Code Enforcement system requires a variety of administrative remedies for the effective enforcement of violations of the Code. The procedures established in this chapter shall be in addition to any criminal or any other legal remedy established by law which may be pursued to address violations of the Code. The use of procedures established in this chapter, except as specifically provided otherwise, shall be in lieu of criminal sanctions.

The council also finds that there is a need to establish uniform procedures for administrative enforcement hearings conducted pursuant to the Code. It is the purpose and intent of the council to establish uniform minimum procedural requirements for administrative enforcement and adjudication procedures for the Code, and to provide for an administrative hearing and appeal.
