Dear Mr. Rundle,

Please let this letter serve as notice that NV Energy is in agreement with the proposed realignment of the utility corridor for the 104 line in the application submitted by Wood Rodgers. NV Energy has been involved in the project from its inception and has provided the details for the realignment through a design analysis process and find the proposal in accordance with the National Electric Safety Code and our internal standards and practices.

If you have any questions don't hesitate to contact me.

Best Regards,
